

1.1.1 - The Institution ensures effective curriculum delivery through a well planned and documented process

Principal in the HOD's meeting in concurrence with IQAC, constitutes a committee to prepare the semester-wise calendar of events to the forthcoming year programmes at the end of each academic year and to design the time table for all the U.G. and P.G. programmes conducted in various departments of the college, as per university norms. The calendar of events and the time table are displayed on the college notice board and uploaded in the official website of the college. IQAC also monitors the strict implementation of the academic programmes as per the calendar of events and the time table. The college has self-designed skill based training programmes which make the students employable and promote them for entrepreneurship development. As normal practice, at the end of each semester, every department conducts council meeting, and the teachers are informed about their workload and courses for next semester and asked to be prepared for both theory and practicals. This process enables the teachers to prepare a teaching plan, in advance, for the next academic assignment. IQAC provides all the teachers with a teachers work dairy, where they have to record their lecture plans and work execution details. This will be monitored and duly acknowledged by the principal. Teachers refer standard text books and reference books prescribed by the university, along with the latest information available online in various standard websites; they also explore other resources which are available for effective implementation of the curriculum. In addition to traditional teaching methods, various other teaching methods like the conduct of quiz programmes, group discussion, demonstrations, debates, power point presentations, projects works, industrial visits, add-on practicals, assignments, videos, use of charts and graphs and case studies are adopted for effective implementation of the curriculum. IQAC prepares the time schedule for the conduct of bridge courses for the beginners as well as seniors of all the semesters. Based on the performance of the students in the first internals, a list of slow learners is prepared and the teachers were informed to conduct remedial classes for such students to strengthen the academic standards of the students and to improve their performance. Academic review and feedback from students/ parents/ stakeholders/ employers/ alumni are taken periodically on different aspects. Feedback analysis will be done by the staff of department of Statistics, Karnatak Arts College and BCA department and the results will be submitted to the Principal. Intern, principal will send the report to the individual teachers. Principal holds individual discussion with such teachers whose performance is below average and gives suitable advice if necessary. Thus Principal helps and encourages poor performing teachers to evolve into good teachers.

Principal,
Karnatak Science College
Dharwad.
